The Largest Cat In NYC Who Weighs 28 Lbs And Is Larger Than Most Bobcats

His name is Samson. At 28 lbs this Maine Coon from New York City is actually bigger than your typical bobcat! Matter of fact, he is being coined as the biggest cat in NYC as he is a whopping 4 feet in length!

The biggest cat is said to have measured 4.04 feet, and held the Guinness World record. But that cat passed away in 2013.

Here's how Jonathon Zurbel describes Samson:

"Samson is a very sweet but a tough cat, who fits the term gentle giant very well. He is not fat or overweight but a strong Husky sturdy cat. He waits by my (bedroom) door and comes in first thing in the morning to sit on my belly. He is very kind and sweet and a very well behaved cat. He is a dream cat."
